

# Great American Eclipse 2017

Name:

Age:

## Things to note during partial eclipse:

Temperature:

Weather:

Look for crescents on ground in shade beneath trees

Could you see sunset/sunrise all around?

Anything else to note?

## Things to note during total eclipse:

Temperature:

Did you see shadow bands on a flat white surface?

Did nocturnal animals come out?

Did chickens go to roost or lay eggs again?

Could you see stars?

Could you see planets?

Anything else to note?

**Draw a picture of something you observed during total or partial eclipse**
